12th INTERNATIONAL CONFERENCE on OPERATIONS RESEARCH

Havana; March 8-11, 2016

Devoted to the 50th Anniversary of the journal Investigación Operacional

Monique Florenzano in Memoriam

Plenary Themes: Optimization, Probability and Statistics, Mathematical Economic, Differential Equations, Algorithms, Teaching on Operations Research.

Plenary lectures:

The Importance of Collective Science, James J. Cochran (Department of Information Systems, Statistics, and Management Science Culverhouse College of Commerce and Business Administration University of Alabama)

A new vision of extreme values theory under dependence Paul Doukhan (University of Cergy Pontoise and French University Institute)

Locating Hubs: an overview of models and potential applications, Elena Fernandez (Universidad Politécnica de Catalunya, Spain)

Digital Humanities and Operations Research, Martin Grötschel (Berlin-Brandenburg Academy of Sciences and Humanities)

A markov decision tree model to evaluate cost-effectiveness of cervical cancer treatments , L. Robin Keller (University of California, Irvine, USA)

Fuzzy Optimization: Since 1970 until today and back, José Luis Verdegay (Universidad de Granada, Spain)

Organized by:

Universidad de La Habana

Université Paris 1, Panthéon-Sorbonne

Confirmed Plenary Talks

Model-based clustering of functional data: application to the analysis of bike sharing systems

Charles Bouveyron

Laboratoire MAP5, UMR CNRS 8145, Université Paris Descartes

A new vision of extreme values theory under dependence

Paul Doukhan

Université de Cergy-Pontoise

A Markov decision tree model to evaluate cost-effectiveness of cervical cancer treatments

L. Robin Keller

University of California, Irvine, USA.

Digital Humanities and Operations Research

Martin Grötschel

President Berlin-Brandenburg Academy of Sciences and Humanities

Fuzzy Optimization: Since 1970 until today and back

José Luis Verdegay

Departamento de Ciencias de la Computación e Inteligencia Artificial

Universidad de Granada

The Importance of Collective Science

James J. Cochran

Department of Information Systems, Statistics, and Management Science

Culverhouse College of Commerce and Business Administration

University of Alabama

Locating Hubs: an overview of models and potential applications

Elena Fernández

Universidad Politécnica de Catalunya

Registration and General Information

REPORT ON THE 11TH INTERNATIONAL WORKSHOP ON OPERATIONS RESEARCH

Photo of the workshop

The 11th INTERNATIONAL Workshop on Operations Research was developed in La Habana in the period March 10-13, 2015. The organizers were Universidad de La Habana and Université Paris 1, Panthéon-Sorbonne. We had as sponsors Asociación Latinoamericana de Investigación Operativa (ALIO), American Statistical Association, Sociedad Cubana de Matemática y Computación (SC Investigación Operacional), Asociación Mexicana de Estadística (AME) and the Oficina del Historiador de La Habana who fostered the development of the activities in Colegio San Gerónimo de La Habana and provided the infrastructure facilities for its development.

In the framework of XI IWOR was organized a Colloquium on Teaching Effectiveness Colloquia (TEC). It was chaired by Prof. James J. Cochran of the University of Alabama. The colloquia featured speakers of United States and Cuba.

The percentual structure of the 66 contributions were distributed as follows:

THEMATIC	ASIA	EUROPE	CUBA	LATIN AMERICA	NORTH AMERICA	TOTAL
ALGORITHMS	-	1,5	10,6	1,5		13,6
ECONOMIC MODELING	-	4,5	-	14,4	3,0	21,9
OPTIMIZATION	1,5	4,5	8,0	-	-	14,0
OR-APPLICATIONS	-		10,0	2,0	1,5	13,5,0
STATISTICS	-	10,6	3,0	17,4	6,0	37,0
TOTAL	1,5	21,1	31,6	35,3	10,5	1000

The workshop served for sharing ideas about different aspects of the applications of operations research and statistics in medicine, traffic control and teaching

This issue of Investigación Operacional contains part of a selection of the papers presented in the workshop.
